# EXPLANATION.

For the purpose of giving immediate insight to the use of these Tables,

AN EXAMPLE is placed at the foot of each, the same Rule applying to all, namely, that of—

MULTIPLYING *the Amount* for which Interest is required by the *Number of Days* determined upon; then—

SUBTRACTING from the sum so produced, the *nearest amounts* as they are found in the larger columns of the Table selected. *The Equivalents* in Pounds, Shillings, Pence, &c., as they are given in the smaller columns, and parallel with the larger numbers respectively when added together, will give the Interest sought, to one Farthing.
